Program activities in 2020

BOOSTING EXPORT WITH PACKAGING -PROJECT

Module 1: Get the cornerstones – benefit from the basics: packaging and sustainability in different target markets. How can modularity improve the profit? Packaging and food waste.

5.-6.3. Helsinki
[Registration open](#)

Module 2: Get inspired – Trends and requirements in target markets: the trinity of material, visual identity, and value proposition – consumer preference, legal requirements and packaging trends in different markets.

2.-3.4. Helsinki
[Registration open](#)

Module 3: Get creative – Branding and design: the power of storytelling in branding, design and product packaging. How Finnish is Finnish enough? Does the same packaging appeal in all markets?

28.-29.4. Helsinki
[Registration open](#)

Module 4: Get the Grips – Consumer testing and funding: from sensory testing to rapid online testing of raw concepts. Business Finland funding instruments.

19.-20.5. Helsinki
