ecia caas In Short

Matti Lankinen, Vediafi Oy

vedia

Who & What

Vedia team consists of 23 professionals with capabilities for business and product development as well as deployment of end-toend solutions.

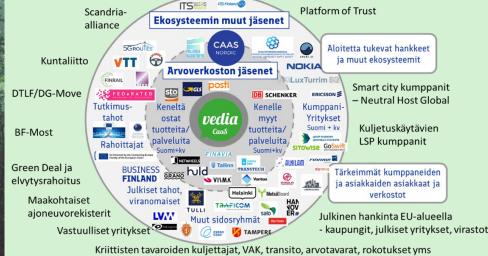

Vediafi:

- Established in 2013
- Provides data solutions for sustainable logistics
- EU and Asia corridor as geographical reach

Corridor as a Service – CaaS:

Vedia CaaS is a data service that improves sustainability, reliability and transparency of logistics in smart cities, logistics hubs and international transport corridors.

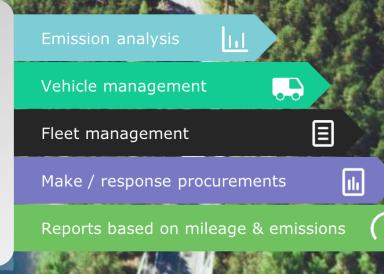

vedia

#1 Business: Managing fleet emissions

EU public entities shall comply with the Clean Vehicles Directive requirements from August 2nd, 2021 in all procurements

CO2 emission and	alysis			Sea
Average CO ₁ emissio	in (WLTP/NEDC)			Compar
g/km				
220
