

European partnerships in Horizon Europe

The aim is to deliver on global challenges and industrial modernisation through concerted research and innovation efforts.

European partnership on innovative health (continuation of IMI 2)

- SRA, governance etc. in preparation
- Industry sectors involved: Pharmaceutical companies (EFPIA), Medical imaging, radiotherapy, health ICT and electro-medical companies (COCIR), Medical technology companies (MedTechEurope), Biotechnology companies (EuropaBio), Vaccine companies (Vaccines Europe)
- Cross-sector collaboration to maintain Europe at the forefront of medical innovation for the benefit of European citizens and healthcare systems
- Goal: Fast delivery of the most pertinent and safe innovative solutions to prevent, diagnose, treat and manage noncommunicable and infectious diseases, while preserving the sustainability of the healthcare systems and competitiveness of health industry
- The funding model - 50/50 share of industry/EU contribution at project and programme level
- NCPs: [Helena Viita](#) and Raimo Pakkanen, Business Finland

European Partnership on Innovation and Transformation of Health and Care System

- SRA, governance etc. in preparation
- A partnership with health and care systems owners/organisers and research funders to boost research in policy, uptake and scale-up of innovations to accelerate transformation of national/regional health and care systems
- The partnership aims to address concrete gaps between research, innovation and deployment, when it comes to transforming specific elements of the health, care and social support systems through a cross-sector/cross-policy collaborative approach
- NCP: Marko Uutela, Academy of Finland
