

The Nordic Battery Collaboration between Innovation Norway, Business Sweden and Business Finland, invite you to the second

# NORDIC REGIONAL BATTERY VISIT

## ARENDAL OCTOBER 10th-11th

The theme for this gathering is innovative battery materials – focusing on regional sourced raw materials combined with sustainable recycling.

During the 1½ day program, you will learn from others, share insights and experiences, meet and network with companies and regions, listen to inspiring speakers, take part in discussions and join site visits (Morrow Batteries, Glencore Nikkelverk, Vianode and University of Agder).

Hosts are the Arendal municipality, Agder County Council, Battery Norway and Eyde Cluster.

### Main topics:

- Potential for raw materials in Europe and the Nordics
- Innovative low carbon battery materials
- Recycling and re-use of battery materials
- Regional development, including talent attraction

### Confirmed speakers & companies:

- Peter Handley, Head Of Unit, DG GROW at European Commission
- Henrik Schiellerup, Norway's national geological survey and a speaker from Geological Survey of Sweden
- Speakers from Li-cycle, Kuniko, Morrow Batteries, Vianode and Topsoe – more to be announced shortly.
