

FINLAND in Horizon 2020: Food security, sustainable agriculture and forestry, marine and maritime and inland water research and the bioeconomy (SC2)

This document briefly demonstrates the success of Finnish participants in Societal challenge 2 of the Horizon 2020 -programme. The information is based on the European Commission's project database dated 02.02.2021. Final SC2 results will be confirmed later after all H2020 calls have been processed.

Finland in H2020 SC2

As the figure above shows, Finland received 536,32 M€ funding (total EC contribution) for Societal Challenges of which 83,48 M€ was granted to SC2 – Food security, sustainable agriculture and forestry, marine and maritime and inland water research and the bioeconomy. Altogether there were 1490 Finnish participations for applying SC2 funding. 234 Finnish participations were granted funding, 24 of which as coordinators. Thus, the Finnish success rate in SC2 was 15,7%. Information on the participations, organisations and projects are listed in this document.

In the SC2 theme, research institutes were the most successful organisation type. For example, the Natural Resource Institute Finland (Luonnonvarakeskus) was granted funding for 49 projects, 8 of which they coordinated. Of other organisation types, University of Helsinki and the Ministry of Agriculture and Forestry were granted funding for 10 projects each. Several Finnish private companies were also funded, Metgen Oy, Metsä Fibre Oy and UPM-Kymmene Oyj being among the most successful. Altogether these six participants received 45,6 % of the total granted SC2-funding to Finnish participants.

Most of the action types in SC2 calls were RIA (Research and Innovation Actions), CSA (Coordination and Support Actions) and IA (Innovation Actions), which make more than 90% of all action types. Not surprisingly, these were also the most common project types for Finnish participants.

Funding by organisation type

Organisation type	Participations in projects	EC contribution, €
Research institutes	89	38 428 561
SMEs	36	17 727 903
Universities	29	9 409 382
Corporations	33	7 851 018
Other organisations	38	7 352 963
Colleges	9	2 711 066

Most common project types

- Research and Innovation Actions (RIA, 41 funded projects)
- Coordination and Support Actions (CSA, 27 funded projects)
- Innovation Actions (IA, 23 funded projects)
- JTI-BBI-RIA (16 funded projects)
- ERA-NET-Cofund (10 funded projects)

Organisations with most participations

Organisation	Participations	Coordinations	EC Contribution, €
Natural Resources Institute Finland	49	8	19 443 497
University of Helsinki	10	-	3 340 029
Ministry of Agriculture and Forestry	10	1	1 091 342
Metgen Oy	5	-	8 765 786
Metsa Fibre Oy	4	-	794 722
UPM Kymmene OYJ	4	1	4 641 088

Most successful coordinators

- Natural Resources Institute/LUKE (8)
- European Forest Institute (3)
- Technical Research Centre of Finland/VTT (3)

Horizon 2020 -funded Finnish project participants in SC2

Organised by contract signature date starting from 2015-02-16 and ending at 2020-09-18.

Organisation types: 1=Research Centre, 2=University, 3=College, 4=Corporation, 5=SME, 6=Other.

Most participations in SME-1 and SME-2 funding are not included in the numbers of coordinators, because there is only one participant. They are marked with * in the table.
