

OECD INDICATORS OF TALENT ATTRACTIVENESS

TALENT BOOST SUMMIT 2019

Turku, 12 November 2019

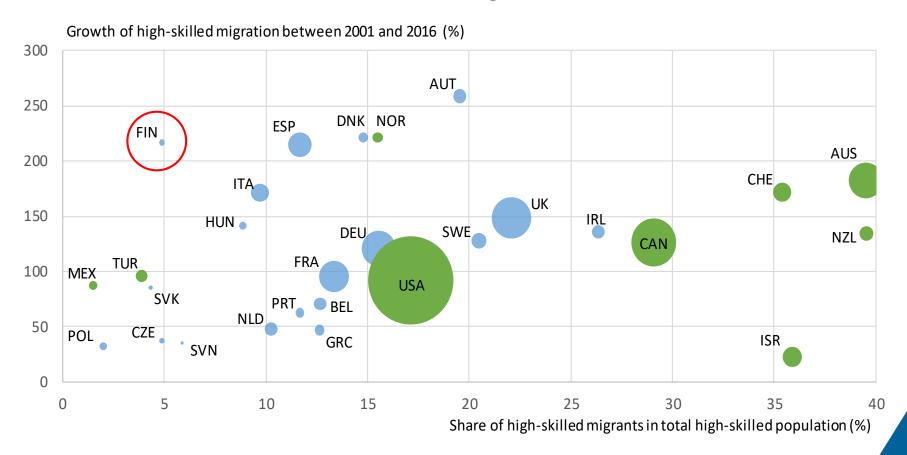

Jonathan Chaloff International Migration Division, Directorate for Employment, Labour and Social Affairs OECD

Global increase in mobility of the highly-educated

Number of high-educated migrants in OECD countries has grown from 19 million in 2001 to 39 million in 2016, but growth has been uneven

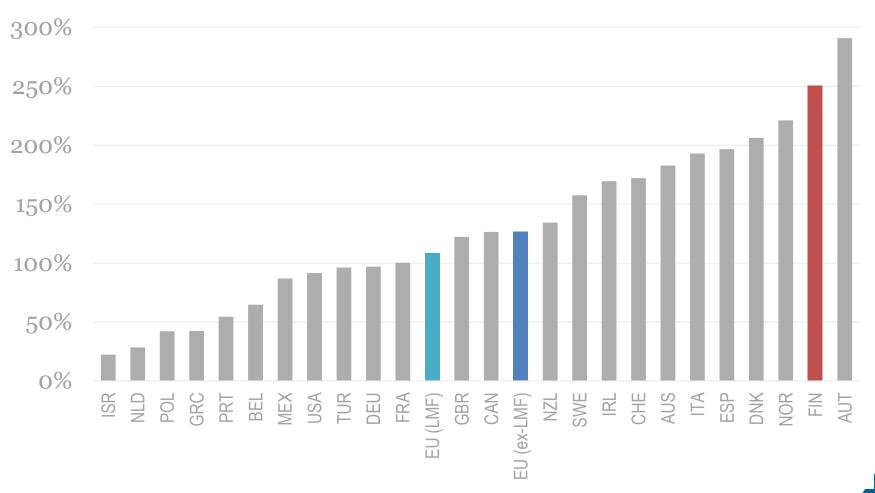

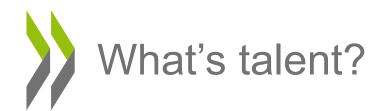

Source: OECD Database on Immigrants in OECD Countries (DIOC)

Rapidly growing high-educated migrant population

Growth rate of high-skilled migrant population (15+) between 2001 and 2016

"We know it when we see it"
Most OECD countries have
implemented specific policies to
"attract" talent...

... though scale and scope of what is considered "talent" differs widely...

... and what it means to attract.

OECD Indicators of Talent Attractiveness

A tool to measure the attractiveness of OECD countries for talent

Sets of indicators grouped by topic for OECD countries allowing different types of users to compare how countries perform overall and in specific areas

In collaboration with the

Bertelsmann**Stiftung**

3 profiles of talented migrants

Workers with master/PhD degrees

Entrepreneurs

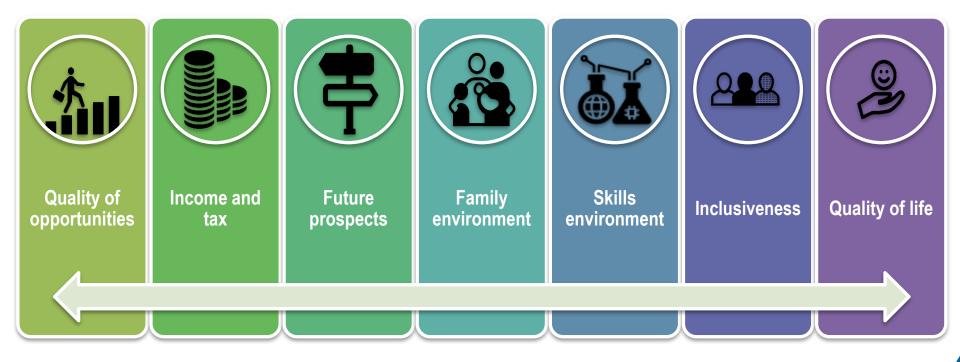

University students

7 dimensions of talent attractiveness

Difficulty of accessibility of countries in terms of admission policies and procedures harm their attractiveness to talent

Workers with Master/PhD degrees

- 1. Share of immigration cases refused by the destination
- 2. Delay from starting an immigration case to starting work
- 3. Stringency of quotas for highly skilled temporary foreign workers

Entrepreneurs

- Minimum capital to be invested
- Minimum number of jobs that has to be created

University students

- University tuition fees for international students
- 2. International student industry

Indicators of Talent Attractiveness Highly educated workers

Top 10 most-attractive OECD countries for highly educated workers

Dimensions weighted equally

- Australia
- 2. Sweden
- 3. Switzerland
- 4. New Zealand
- 5. Canada
- 6. Ireland
- 7. United States
- 8. Netherlands
- 9. Slovenia
- 10. Norway

Finland: quartiles by dimension

With priorities, ranking of higheducated employees

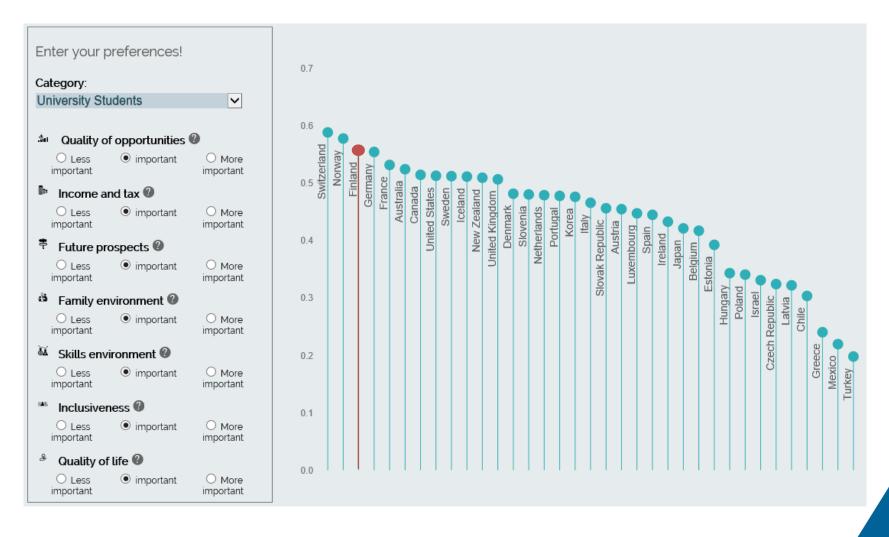

Unweighted ranking, students

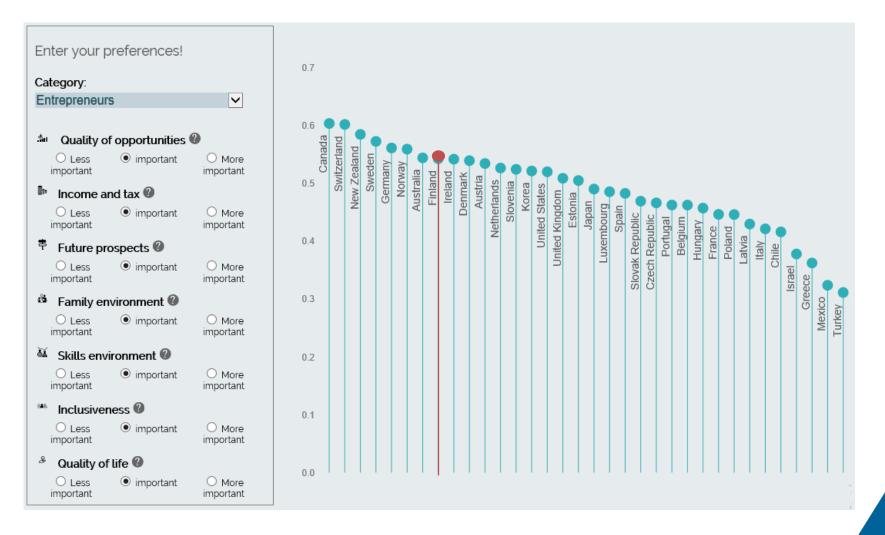

Unweighted ranking, entrepreneurs

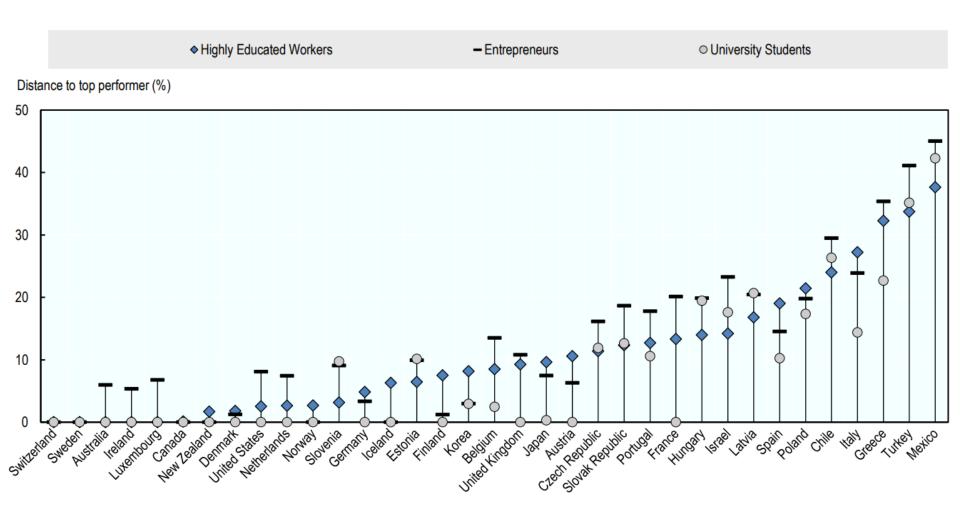

If policies were most favourable, how would the rank change?

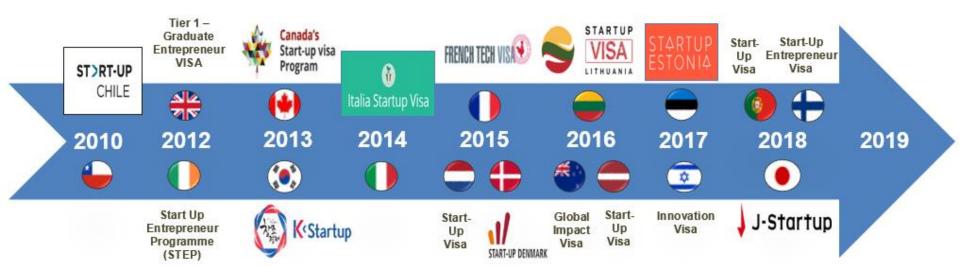

Source: OECD Secretariat.

- It's not just about migration policy
- Relies on demand
- Shift focus from facilitation to active attraction, integration and retention
- Non-traditional categories of "talent"

Start-Up Visa programmes are rapidly emerging in OECD countries

"Start-up visas" vary in terms of the target, eligibility, procedures for assessment, conditions granted to the visa holder, and ancillary services.

Loss-leaders to get on the map

Korea (2013)

Chile (2010)

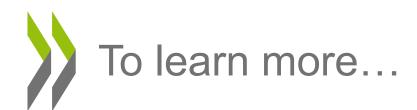

Japan (2018)

Poland (2018)
