Export licenses for food export from Finland to China

Riitta Rahkila, Senior Officer, DVM PhD
Finnish Food Authority Export Section

11.3.2019 China coaching day

Export licenses for food export from Finland to China

- FFA 's role in food export to China
- Food export related license status
- Certificates for export to China
- Current issues on Finnish food export to China

Finnish Food Authority Export Section

Aim: to enhance the export of Finnish food, feed, live animals and gametes to third countries

- Work closely together with Business Finland, Ministry of Agriculture and Forestry (MAF) and the Embassy of Finland in Beijing
- MAF is in charge of the SPS-(sanitary and phytosanitary) requirements of international trade
 - Bilateral agreements
- Finnish Food Authority is in charge of the implementation of bilateral agreements

Finnish Food Authority

Export Section

The central competent authority in veterinary export issues:

- Administration of Veterinary and Phytosanitary certificates
- Market access questionnaires
- Inspection and audit tasks to verify the compliance of operators with export requirements and the effectiveness of the official export control at the local level
 - Control systems (China, Eurasian Economic Union incl. Russia, USA)
- Organizing third country audits
- Training and guidance of business operators and official control on export requirements
- Co-operation with the officials of third countries on animal disease and food safety issues

17351

Enterprise Administration | Customs Clearance | Cargo Control | Baggage & Postal Items | Prohibited & Restricted | Processing Trade | Special Control Areas | Bonded Premises | Customs IPR Enforcement | Journalists' Equipment

<http://english.customs.gov.cn/>

Establishment registration to GACC

- The operator is responsible for meeting the export requirements (FFA assists 😊) – the operator contacts FFA
- On-site audit by FFA: evaluation of the HACCP-based own control and the premises
 - Corrective actions, inspection by local competent authority
- When the export requirements are met - Declaration of compliance by FFA and the application of the operator is sent to GACC
- Evaluation by GACC, possible on-site audit
 - Corrective actions, additional information, inspection by FFA/local competent authority
- When all requirements are met according to GACC - Registration

Bilateral agreements ("Export licenses") FI - CH

Pork

- Protocol, Veterinary Certificate
- Frozen pork, ten "products"

Meat other than pork

- Export not possible

Honey

Export not possible (except processed honey products?)

Cereal

- Protocol
- Oat, oat flakes and barley

Milk products

- Veterinary Certificate
- Products defined in the establishment approval document

Mushrooms

Export not possible

"All food and beverages"

From 1.10.2019 general Health Certificate for all foods?

Infant milk formula

- Veterinary Certificate

Fishery products

- Veterinary Certificate
- Only products from certain fish species and certain product types possible

Berry products

- Export of frozen blueberry possible
- Export of other berry products not possible at the moment

Berries and berry products

- A bilateral agreement between China and Finland is needed for the export of fresh, frozen and dried fruits.
 - Current agreements: Finland - 冷冻蓝莓 frozen blueberry, 冷冻越橘 frozen bilberry
 - The process for other fresh/frozen/dried berries is just about to start. The approval process might take several years.
- Processed berry products should be ok (juices, candies, jams...) if they comply with the relevant Chinese product standard.
 - Note that bilberry and lingonberry as ingredients might cause problems due to their status as health ingredients / novel foods.

Registered establishments FI - CH

- Pork: two slaughterhouses + two cold storages
- Milk products: five production plants
- Infant milk formula: two production plants
- Aquatic products: one production plant

- Waiting for approval: storages, fishery establishments

Veterinary Certificate

- For products of animal origin
- Finnish Food Authority administrates
- Local Official Control issues

Phytosanitary Certificate

- Finnish Food Authority administers and issues
- Registration to Plant Health register (FFA) needed:

<https://www.ruokavirasto.fi/yritykset/tuonti-ja-vienti/vienti-eun-ulkopuolelle/tuotekohtaista-vientitietoa/kasvituotteet/>

kasvienvienti@ruokavirasto.fi
