SMART CITY SOLUTIONS
FROM FINLAND

26.4.2018
ENERGY Companies co-funded by Tekes’ Witty City Programme

LEANHEAT – Energy efficiency
Smart building control and maintenance powered by IoT. Fully automated and self-learning, Leanheat’s solution provides real-time optimization not only for individual buildings, but entire clusters of apartment buildings.

ENERGY EFFICIENCY CLINIC – Energy efficiency
We are digitizing energy efficiency. Energy savings can be achieved more quickly, cost-effectively and reliably.

FORTUM – Systems, Smart Grid
Fortum provides customers with electricity, heating and cooling as well as smart solutions to improve resource efficiency.

TERALOOP – Storage
Teraloop is developing a breakthrough in utility scale storage to unlock the integration of renewable energy. Teraloop has evolved the flywheel concept, paving the way for a large scale, high energy, kinetic storage system.

OPTIWATTI – Energy efficiency
OptiWatti makes smart energy management easy. The solution optimizes energy usage on heating and cooling on room level with a smart and predictive control mechanism. For utilities OptiWatti offers solution to boost demand response.

ABB – Systems, Smart Grid
ABB is a pioneering technology leader that is writing the future of industrial digitalization. Every day, we drive efficiency, safety and productivity in utilities, industry, transport and infrastructure globally.

OILON – Systems, heating
Oilon provides industrial heat pumps and cooling plants, ground source heat pumps, solar heat collectors, and burners and combustion.

FOURDEG – Energy efficiency
Fourdeg Smart Heating is a service to improve indoor comfort with individual and stable heating, and save heating energy costs by lower consumption and demand-side management. The service works fully automatically at room level accuracy.

FORTUM – Systems, Smart Grid
Fortum provides customers with electricity, heating and cooling as well as smart solutions to improve resource efficiency.

BUILDINGS AND PLANNING
Companies co-funded by Tekes’ Witty City Programme

A-INSINÖÖRIT – Planning
AINS is a growing international expert in construction management and design. With Cityfier you are able to compare alternative plans for neighbourhoods and get a forecast of the area’s value development. ains.fi

TRIMBLE – Planning
Trimble drives the evolution of digital information models to provide greater competitive advantage to the construction, infrastructure and energy industries. Trimble currently has customers in over 100 countries, its own offices in over 20 countries, and a global partner network. trimble.com

GRANLUND – Planning
Granlund specializes in design, consultancy and software services. The core of its expertise is energy efficiency. granlund.fi

SITOWISE – Planning
Sitowise helps cities and infrastructure owners to gain cost-efficiency by digitalizing urban planning, construction and maintenance. We help cities to set up data infrastructures and 3D city models, which form a platform for smart city applications. sitowise.fi

ENERON – Smart buildings, property
Eneron analyzes entire property portfolios, understands the needs of real estate business and the strategy of property owners, and optimizes energy efficiency investments. eneron.fi

720 DEGREES – Smart buildings
720° is a cloud-based analytics solution for the collection and evaluation of indoor environmental quality data such as: air quality, thermal comfort and noise pollution. 720.io

HALTON – Smart buildings
Halton Group is the global technology leader in indoor air solutions for demanding spaces. halton.com

KONE – Smart Buildings
KONE People Flow Intelligence offers solutions for smart buildings: access and destination control, information communication and equipment monitoring. kone.com

LIGHT COGNITIVE – Smart Buildings
Light Cognitive creates lighting solutions for personal well-being and performance. Big Sky produces a dynamic natural skylight view, allowing people to enjoy long clear days even when the real days are short or cloudy. lightcognitive.com

iLOQ – Smart Buildings
Transforms mechanical locking into digital access management. iLOQ provides self-powered digital locking and access management, without batteries or cables. iloq.com

ENERON – Smart buildings, property
Eneron analyzes entire property portfolios, understands the needs of real estate business and the strategy of property owners, and optimizes energy efficiency investments. eneron.fi

TRANSPORT AND MOBILITY
Companies co-funded by Tekes’ Witty City Programme

FLEETONOMY – Autonomous driving
Fleetonomy provides an end to end platform for planning, operating and optimizing fleets of autonomous vehicles.
fleetonomy.io

KYYTI – Services
Kyyti develops an integrated multi-modal mobility application that lets you plan your routes and compare mobility options and costs.
kyyti.com

MAAS GLOBAL – Services
The world’s first ever mobility operator, MaaS Global is on a mission to free people from having to own a car. Their Whim mobile app lets you travel wherever and whenever, with public transport, taxis, brand-new cars and more.
maas.global

PAYIQ – Services
PayIQ develops intelligent cloud-based mobile solutions for public and private transport. PayIQ is the leading mobile payment solutions enabler for Mobility as a Service (MaaS) operators, focusing on mobile tickets, security and safety.
payiq.net

WITRAFI – Services
Witrafi is using new technology to change the way we park. Users can now find and reserve parking spaces without having to circle around the block.
witrafi.com

VIRTA – Electric solutions
Virta is the leading provider of EV charging services in Finland, with clients in seven European countries. Virta’s smart solutions cover the whole value chain.
virta.global

EKOENT – Electric solutions
EkoRent develops and offers zero-emission mobility solutions. Our fully digital rental and sharing services are based on Electric Vehicles and Solar Energy, and are used with a mobile application tailored for electric vehicles.
ekoent.fi

SHAREIT BLOX CAR – Services
Shareit Blox Car is a peer-to-peer car sharing service that helps car owners find someone to rent their car to when they don’t need it.
shareitbloxcar.fi

PARKING ENERGY LTD – Electric solutions
Parking Energy Ltd is a technology oriented parking electricity operator. We solve the issues within electric car charging in real estate environments.
parkingenergy.com

LINKKER – Electric solutions
Linkker builds electric buses with lightweight technology, energy efficient drivelines and fast charging. Linkker’s solution leads to lower consumption and lower life cycle costs.
linkkerbus.com

INFOTRIPLA – Autonomous driving
Infotripla provides innovative solutions for traffic information management, analysis and data exchange. Their solutions are designed to provide better mobility services in smart cities and transport networks.
infotripla.fi

PAYIQ – Services
PayIQ develops intelligent cloud-based mobile solutions for public and private transport. PayIQ is the leading mobile payment solutions enabler for Mobility as a Service (MaaS) operators, focusing on mobile tickets, security and safety.

SMART CITY SOLUTIONS
Companies co-funded by Tekes’ Witty City Programme

Netled
Netled provides industrial scale automatized vertical farms that are able to produce herbs and leafy greens in high quantities anywhere in the world.

netled.fi

Glaston
Glaston is developing equipment for the processing of smart glass. The properties of intelligent or smart glass and window glass can be altered when needed.

glaston.com

Admares
Admares’ innovative floating structures create new valuable real estate on the water. The company is pioneering construction methods that combine cutting-edge marine, land and modular construction techniques.

admares.com

Kone
KONE People Flow Intelligence offers solutions for smart buildings: access and destination control, information communication and equipment monitoring.
